

Democracy Center Shows

 COVID-SAFE(R) MITIGATIONS 

We want everyone attending shows here to have the protections they need to stay healthy during this ongoing pandemic. Please follow these guidelines and remind others to do the same. The CDC, the government, and much of the larger culture of the US have all abandoned any meaningful public health response, opting to prioritize the advancement of capital and a false rhetoric of normalcy. We, the showbooking collective, reject the “urgency of normal,” ... we know that

WE KEEP US SAFE.

-Masks required

- *Performers may choose not to wear a mask while playing, IF a negative rapid test (taken within 12 hours of the show but ideally closer) is presented at load-in. (Please don't bring the physical used test, just a photo or verbal confirmation is fine)*
 - *If you are unable to test prior to the show, rapid tests will be available for free at load-in.*
 - *Masking during performance is still encouraged!*
- **Everyone* is required to wear a mask in the building while not performing.*

-Vaccines encouraged (please be vaxxed)

-Testing recommended

- *A good protocol is a rapid test 2 hrs prior to the event, and monitor symptoms/test again at least 2 days after.*

-STAY HOME IF YOU HAVE SYMPTOMS/ARE SICK/WERE EXPOSED

-Opt-in contact tracing will be available

- *Show-goers will have the option to share contact info at the door. We'll contact everyone who opts-in if someone present at the show tests positive and offer whatever resources we can to prevent additional cases.*

-Lower capacity: (may vary)

-We will have air purifiers (with TRUE HEPA filters) throughout the space, and open windows and doors as much as possible (just not while loud music is amplified)

-No food/drink (except water) allowed inside
